

DSP-300

Digitally Enhanced Lightweight Stereo Headset

The DSP-300 is a digitally-enhanced lightweight headset with full-range stereo sound. Packaged with Plantronics' PerSono™ Audio Control Center Software, and leading speech recognition and voice applications, it's the ideal headset for any multimedia application. Digital Signal Processor (DSP) provides full-range digital audio—particularly great for listening to CDs, DVDs and MP3 files. And a noise-canceling microphone greatly enhances speech accuracy.

- Digital Signal Processor (DSP) provides full-range digital audio
- PerSono Audio Control Center Software for easy, precise control of audio quality
- QuickAdjust™ microphone boom allows user to easily position microphone for greater performance and accuracy
- Sleek, stylish design with color accents
- Ultra-sensitive, noise-canceling microphone delivers full spectrum of human voice
- Bonus software includes leading speech and voice recognition software and a robust MP3 player
- Constructed with new lightweight materials for ultimate all-day comfort

PRODUCT SPECIFICATIONS

Digital Signal Processing
5-channel 16-bit, 48kHz data from USB
24-bit, 100dB signal-to-noise CODEC
32-bit digital audio processing

Headphone Output
2-channel 48kHz output to headphone
Headphone gain stage >80dB range
Preset digital EQ-6 bands/channel (stereo)
Bass, treble, balance and volume controls
60Hz-16kHz speaker frequency response
28mm speaker diameter

Microphone Input
Mono, 16-bit, 48kHz data
Preset digital EX-6 bands mono
Microphone gain stage >50dB range
Up to 25dB noise rejection
(hypercardioid response)
100Hz-10kHz frequency response
Electret condenser microphone
with -38dVB/Pa sensitivity

Earcushion: 4mm Foam
Cable Length: 3 meters
Connection: USB

SYSTEM REQUIREMENTS

Windows 98 Second Edition/Windows 2000
Pentium II 166 Mhz or equivalent
