.Audio™ 476 DSP Headset

We are pleased to announce the launch of the .Audio 476 foldable USB Headset with Digital Signal Processing technology.

Key Features

- Intuitive folding design and carrying case is perfect for travel
- DSP technology gives clearer voice calls and improved audio listening over typical PC audio
- DSP enabled echo cancellation provides wideband acoustic echo cancellation for clear calls
- Noise-cancelling microphone gives greater accuracy of speech for on line gaming and internet telephony applications
- 3 button inline controls provide easy access to volume + / - and mute controls
- Soft foam ear pads and lightweight materials provide comfortable fit for all-day wearing

Digital signal processing technology provides enhanced sound quality in this comfortable, **foldable** stereo USB headset. A noise cancelling microphone and wideband echo cancellation deliver clear voice calls, while an acoustically tuned equaliser supplies rich stereo sound. A comfortable fit and easy-to-use inline controls make this headset perfect for on-the-go audio needs.

First Order Date: 24th MAY 2010
FCS/GA Date: 2nd AUGUST 2010
