

# CS60-USB Quick Reference Guide

## CS60-USB Wireless Headset System

The CS60-USB DECT headset system gives hands-free wireless freedom for many VoIP softphone telephony applications such as Skype™.

Connecting via the PC's USB port, CS60-USB offers excellent digital sound quality.

Compatible with many softphone systems\* such as Avaya and Cisco, the CS60-USB lets you receive calls even when you are away from your desk with its built in hook-switch control.

Designed for the business professional, the headset can be converted into 4 wearing headset styles: over the ear, our unique behind the neck style and 2 headband options.

### Key Features:

- Totally wireless solution – no headset cables
- USB compatible for easy connectivity
- Fully convertible with choice of 4 wearing options
  - Unique behind the neck style
  - Ear-loop style
  - 2 Over-the-head styles
- 100m range – up to 50m in a typical office
- Up to 9 hrs talk time
- Fast battery recharge
- Answer/End call button
- Receive volume & Mute control
