

# DA50

**Bring the comfort and quality of Plantronics headsets to VoIP softphone applications.**

Voice over Internet Protocol (VoIP) is the up-and-coming technology.

More and more businesses are installing soft phone systems in order to optimise infrastructure costs and enhance customer service.

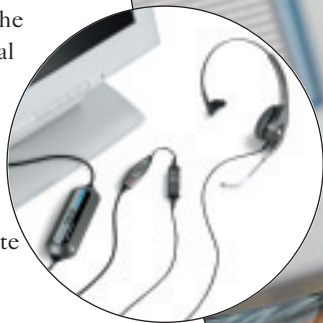

Now you can bring the superior sound quality and comfort of Plantronics H-Series headsets to VoIP softphones with the Plantronics DA50.

The DA50 USB to Quick Disconnect™ cable adapter lets you retain the investment of your current Plantronics headsets whilst taking advantage of the benefits of VoIP.

The Plantronics DA50 is easy to install, plugs directly into the USB port of your personal computer and features Digital Signal Processing (DSP) technology for crisp, clear sound.

The DA50 is supplied with Plantronics' unique PerSono™ Pro software. This lets you optimise the audio qualities of the sound according to your own personal preferences, as well as ensuring that your voice is heard perfectly, call after call.

The Plantronics DA50 also features a convenient in-line volume and mute control and a two-year warranty.
