

MARKETING BULLETIN

Plantronics Blackwire C210M Introduction

I am pleased to announce availability of the Blackwire 210M UC headset which is optimised for Microsoft® Office Communicator. An overview of the product and user benefits are detailed in the attached product sheet.

This directly replaces the .Audio 615M and offers customers the additional benefit of convenient in-line controls for volume, call answer-end and mute.

When inventory is depleted of the existing .Audio 615M, part number 80298-01 customer services will switch customer orders over to the replacement item, we anticipate this to happen within the next two weeks.

Service orders can use the BlackWire C210M as a direct replacement for the .Audio 615M.

First Order Date : Open for orders

Availability : Estimated transition from the .Audio 615M on the 10th May 2010.
