Plantronics Blackwire 600 Series Introduction

I am pleased to announce availability of the Blackwire 600 Series UC headsets. An overview of the product and user benefits are detailed in the attached product sheet.

This series directly replaces the Entera USB family. The In-line module has been incorporated into the Quick Disconnect which offers customers a much smaller and more convenient solution. When inventory is depleted of the existing Entera USB sku's customer services will switch customer orders over to the new BlackWire items, we anticipate this to happen as detailed below. Service orders can use the BlackWire 600 series as a direct replacement for the Entera USB moving forwards.

First Order Date : Open for orders

Availability & Transition Matrix :

<u>Part Number</u>	<u>Description</u>	<u>Directly Replaced by Part Number</u>	<u>Description</u>	<u>Predicted Transition</u>
