

## THE LIGHTEST, MOST STABLE OVER-THE-EAR HEADSET WITH PREMIUM SOUND AND ALL-DAY COMFORT

- **Sound Quality from the Leaders.** The TriStar headset gives you the benefits of SoundGuard®Plus™ and Call Clarity technologies:—speech that is comfortable to listen to and easy to understand, plus voice transmission quality that exceeds that of many handsets.
- **Comfort and Stability: The Three-Point Fit.** The TriStar receiver rests on the ear, not in it—with gentle three-point contact for unshakable stability and no “ear plug” discomfort. And with four sizes of user-selectable earbuds and an adjustable receiver arm, the TriStar headset can be custom fitted to just about anyone, even eyeglass wearers! In addition, it’s the lightest over-the-ear headset we’ve ever designed. Wear it all day and forget it’s there. And all models are OSHA-safe.
- **New Durability.** The TriStar headset is built to last. Even the new lighter weight cables are strong. New flexible circuit technology and rigid ISO-9001 quality testing result in a headset that can take day-in, day-out use.

The TriStar headset’s **three-point custom fit** gives you all the stability you need in a lightweight, comfortable, over-the-ear design that doesn’t mess up your hair. To help develop

this headset, Plantronics performed the world’s largest human-factors study of the ear. The resulting design ensures a perfect fit for just about anyone.

### TRISTAR HEADSET

*From the world’s premier provider of reliable lightweight communication headsets.*

*With its user-selectable earbuds and flexible design, the TriStar headset fits everyone comfortably—even eyeglass wearers.*

# H81: TRISTAR™ HEADSET

The ultimate over-the-ear design: the TriStar headset gives you all-day comfort plus unshakable three-point stability.

- Innovative three-point design for stability—support behind, on top of, and on the ear
- Four user-selectable earbud sizes and adjustable receiver arm for a precise fit
- Exceptionally lightweight (0.42 oz/12g)
- Can be worn on either ear
- Clear, adjustable voice tube
- Supports SoundGuard® Plus™ and Call Clarity technologies for superior sound
- Ten-six-foot cable with Quick Disconnect™ option
- Adjustable clothing clip

# H81N: TRISTAR NC™ HEADSET\*

With added noise-cancelling microphone technology, the TriStar NC headset greatly reduces the transmission of ambient noise in the workplace.

- Innovative three-point design for stability—support behind, on top of, and on the ear
- Noise-cancelling microphone
- Four user-selectable earbud sizes and adjustable receiver arm for a precise fit
- Exceptionally lightweight
- Can be worn on either ear
- Adjustable “swing-away” microphone boom
- Supports SoundGuard® Plus™ and Call Clarity technologies for superior sound
- Ten-foot cable with Quick Disconnect™ option
- Adjustable clothing clip

Plantronics introduced the first lightweight telephone headset in 1962 and has since become the world leader in communication headsets. Plantronics is the primary provider of headsets to telephone companies, call centers, telemarketers and businesses throughout the world. The company's products are distributed worldwide through resellers, retail stores and catalogs.

\* TriStar NC noise-cancelling model available in fourth quarter 1995.

All Plantronics products are manufactured at facilities that meet ISO 9000 Certification Standards and meet or exceed FCC, UL, Industry Canada, and CSA requirements. Plantronics, the logo design, Mirage, SoundGuard, StarSet and Supra are registered trademarks, and Encore, FreeHand, Quick Disconnect, SES, SoundGuard Plus and TriStar are trademarks of Plantronics, Inc.
